myki Marketing Materials Check

Does your myki flag have rips? Is your poster a little faded? Do you want to create a new myki display?

Now is a great time to check your myki marketing materials to make sure they look good for your customers. If your posters, flag, stickers or brochures look like they have seen better days, you can order new ones!

Click on our marketing materials section to see what's available for order. If you are not sure how to order marketing materials, you can follow the steps in your myki quick reference guide under the Cards and Consumables tab.

Please contact your Relationship and Training Officer if you require any further information.
